

Social Security Paid To Disabled Under 31

Here is some good news for those of you disabled before age 31. You may be eligible for a social security check even though you have not worked much under social security.

A recent change in the social security law has reduced the amount of work you need to be eligible for a disability check. Under the old law, you needed 5 years of work out of the 10 right before you became disabled. Under this new law, if you become disabled between the ages of 24 and 31, you will need to have worked one-half the time between age 21 and the date you became disabled. If you are disabled before age 24, you will need 1 1/2 years work out of the 3 year period right before you became disabled.

If you have filed a disability claim in the past and you were turned down because you did not have enough work, you should contact your social security office and ask about this new provision.

The first month benefits can be made under the new law is February 1969. However, don't delay filing a claim. Contact your social security office at 100 West Troy Street, Dothan, Alabama. The phone number is 794-3161. The office is open from 8:45 a.m. to 5:00 p.m., Monday through Thursday and from 8:45 a.m. to 7:00 p.m. on Friday.

Mr. And Mrs. University Adopts Limited System

Allen Return From Tour

Mr. and Mrs. Ira Allen of Route 1, New Brockton, have returned from a tour of Greece, Turkey and the Greek Islands.

The Allens were among 128 employees and guests of Field Enterprises Educational Corporation who sailed from Athens October 23.

Most of those in the party were awarded the expense-paid trip for excellence in selling. Also in the group were Sir Edmund Hillary, conqueror of Mount Everest and Lady Hillary.

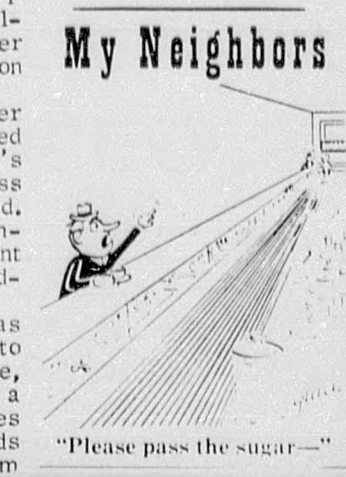

Acting on the recommendations of a joint faculty, administration, and student study group, which included Mr. Edward Still and Mr. Donald Siegelman of the Student Government Association, the University of Alabama has adopted a limited pass-fail grading system. The opportunity to elect courses under the new system will be made available February, 1969.

The pass-fail plan, similar to the Harvard pattern, will enable any upperclass undergraduate with a grade point average of 1.5 or over to enroll in up to a maximum of four elective courses for which he may receive simply a grade of P (pass) or a grade of F (fail). Only once course per semester may be taken on a pass-fail basis.

The courses taken under this system will not be used in computing a student's grade point average unless a failing grade is assigned. The successfully completed courses will count toward the student's graduation requirements.

The pass-fail option was adopted, according to President Frank A. Rose, to "give our students a broader choice of courses outside their major fields of study. The new system

provides additional educational flexibility and initiative for our students as well as increases our students' responsibilities to choose courses that will contribute to their total academic development."

VA To Mail Questionnaires With Checks

Annual income questionnaires in the form of IBM punch cards were sent to veterans, widows and dependent parents along with the Veterans Administration checks which they received the first of November. Walter C. Head, Jr., director of the Alabama Department of Veterans Affairs, said these questionnaire forms were sent only to veterans and widows receiving pension, and those dependent parents receiving compensation.

In addition to the check and the questionnaire, the Veterans Administration enclosed a window envelope. It is most important in that envelope, since the questionnaire has the address of the Veterans Administration office which will process and handle that questionnaire.

Director Head reminded these individuals that their questionnaire must be completed and returned to the Veterans Administration before January 15, 1969, or payments will be stopped. In previous years the deadline was January 31.

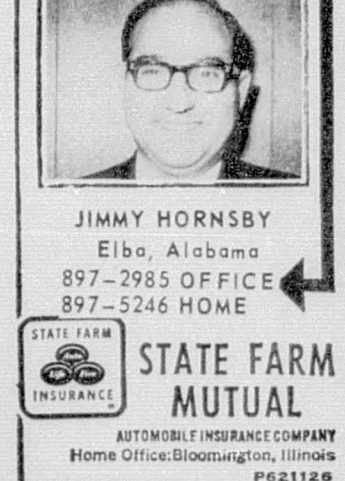

Maxwell Reeves, Veterans Service Officer for Coffee County, whose office is located in the Courthouse Annex in Elba, urges all veterans and their dependents to bring their cards and envelopes to his office, so that he may assist them with proper completion of the forms.

Reeves said that it is absolutely essential that the card and envelope received with the check be used in the return of the questionnaire.

NUMBER 17

Wreck Kills One Thursday

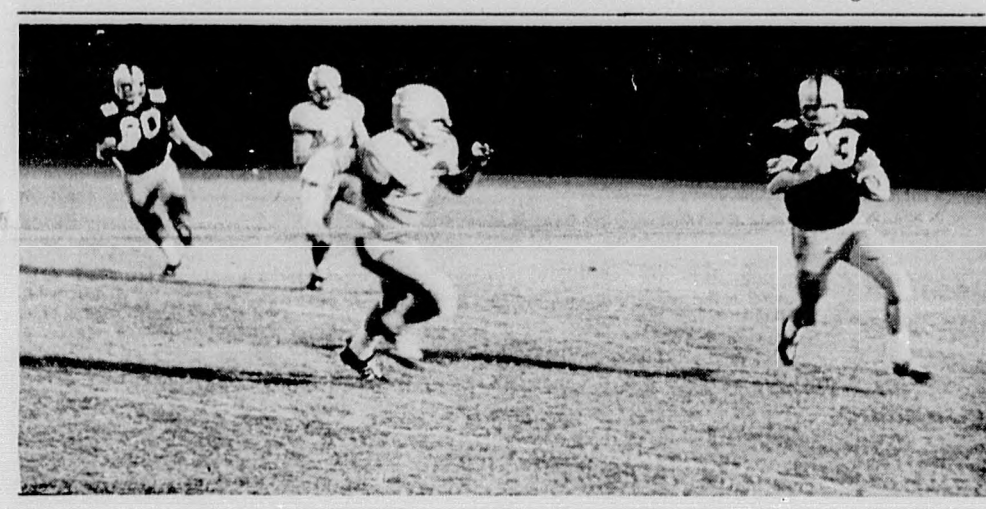

A soldier was killed and three others were injured - one seriously - when an Army fire truck overturned near Inola last Thursday night.

Pvt. James E. Drummond, 19, Gallipolis, Ohio was killed, according to the Alabama Highway Patrol.

He was the son of Mr. and Mrs. Charles Drummond, P.O. Box 18, Slouss City, Iowa, suffered serious head injuries.

Two others were reported in satisfactory condition at Lyster Army Hospital. They are SP4 Emmett Amos and Pvt. Richard Apodaco, both 18.

The accident happened about five miles from Elba as the truck was returning to Ft. Rucker about 5 p.m. from Skilly Stage Field where it had been stationed for the day. Trooper Dan Morris investigated.

DONNIE HOLLEY (number 23) is shown stretching them out as he sprints for yardage in Elba's losing effort against the strong Troy eleven last Friday night.

Troy Beats Elba 28-14 Friday

The Troy Trojans scored two quick touchdowns early in the first quarter and headed into the third quarter to destroy Elba's chances.

Troy scored the first of going to the state playoffs. The Trojans appeared in the first quarter and headed into the third quarter to destroy Elba's chances.

Troy scored the first of going to the state playoffs. The Trojans appeared in the first quarter and headed into the third quarter to destroy Elba's chances.

KATHY BOWERS . . . daughter of Mr. and Mrs. Lawrence Bowers, was selected as the Elba Beauty in activities last Wednesday at Elba High School. Kathy is a junior at Elba High School.

Mail Early Is The Word From Cooper

Postmaster Robert Cooper announced some deadlines and also some advice to Christmas mailers.

According to Cooper, "more mail than ever before will be delivered between now and the holidays." He urges all mailers to start planning their holiday mailings now and to use an "Early Bird" mailer.

Christmas mail for servicemen in foreign countries should have been mailed by November 9th. If it was to be surface mail, packages may be mailed to arrive by Christmas by SAM until November 23 and by PAL until November 30. Airmail should be mailed before December 11th.

Cooper said that the postal service can handle the unusually heavy load of mail expected this year if the public will give a hand by depositing their cards and packages into the mail a bit earlier than usual and by using zip codes. Packages should be wrapped well, without rattles. Addresses should be legible.

New postal laws have eliminated the lower rate for greeting cards weighing an ounce or less. Therefore, all "regular" Christmas Cards will be mailed at the six cent rate this year.

Peoples Bank To Open New Brockton Office

The Peoples Bank has received permission from the FDIC to open a branch bank in New Brockton according to a telegram received Tuesday by President James S. Rainey, Jr., from William M. Morony, assistant to the Board of Directors of the FDIC.

Rainey could not give any other details at present, but said opening dates would be released as soon as work was completed on the proposed building in New Brockton.

Deadline Is Near For Buying Tags

The time is almost up for purchasing your 1969 car and truck tags without paying a penalty. Friday, November 15th, is the deadline and a close check at the Probate Office on Tuesday afternoon disclosed that there were almost 1,000 persons who had not purchased their new tags.

This will undoubtedly cause another session of standing in line on the last two days to keep from paying the penalty.

Elba managed to block one Troy punt and one extra point attempt. The extra point block was nullified by a penalty at the line of scrimmage.

Elba has now completed the 1968 football season with an impressive 8-2 record, losing only to Sam Houston and Troy. This also gives Elba head coach, Leon Akins, a 16-4 record this far in his head coaching career.

NEW GYMNASIUM AT ELBA HIGH . . . Three school board members look over plans for the new gym during the school board meeting last Thursday night. Pictured above are Chairman, Dr. James Clay, Architect Durns, school board member Everett Kelley, Architect Hill and school board member James Boswell.

Wallace Carries Coffee County With 84% Of Vote

In the general election held November 5th, former Governor George Wallace carried Coffee County with an overwhelming 84% of the votes. Vice President Hubert Humphrey ran a distant second and now president-elect Richard Nixon trailed in third place with less than 700 votes.

Congressman George Andrews had no trouble winning re-election, as to polled 9099, Wilbur Johnston polled 187 and Ralph Nixon trailed in third place with less than 700 votes.

Democratic Jim Allen defeated his opponents for the Senatorial post of re-electing Lister Hill by polling 8600 while Republican Perry Hooper tallied 1077 and Robert P. Schwenn 189.

Coffee County voters approved the succession amendment by a vote of 3507 to 1985. This amendment was also approved statewide.

There were almost 11,000 voters at the polls in Coffee County on voting day and observers of county politics state that this is the largest number of people to ever vote in Coffee County.

Coffee County went with the winners this time except of course in the presidential election where the county supported Wallace and Democratic Party over both the Republican nominees.

LADIES WATCH IS FOUND ON ELBA STREET

The Elba Police Department has a ladies yellow gold watch that was found on the sidewalk on November 2nd in front of Vaughan's. The owner may claim by further identifying the watch.

32 ELBA HIGH GIRLS COMPETE FOR ELBALA

Jus' Ramblin' BY LUCILE K. WOODHAM

I BELIEVE those buckeye balls must have some magic attached to them. I have had good luck all over the place since being presented some in Elba and in Florida. And I know how to appreciate "good luck" believe you me.

And, I appreciate those friends who apparently "wished me good luck."

THAT ANNUAL DEER hunt at Dr. McCreary's farm will be featured again Saturday, November 23. This will be the third year the hunt has taken place. The hunt is actually an Elba Rotary Club event but Dr. McCreary is the author of it. Since that first one they sell tickets to the event and the proceeds are used for the club's crippled children's project.

A number of Rotary Club members go over to his plantation on Friday night before the hunt and get things ready for the big day as well as enjoying a "big night" together.

Anytime you take the time to visit this bazaar, you will enjoy every minute of it. Of course you will not want to go back to work but stay around and visit with everybody.

MY TWO TOWNS are getting all ready for Christmas and things are beginning to look sort of like Santa Claus has been snooping around in some of the stores. But of most interest is the projects of the Florida Lions Club and the Elba Rotary Club which are scheduled to take place soon.

In Florida we should all assist the Lions Club as much as possible in their sell of light bulbs and in Elba we should join in with the Rotary Club in their "deer hunt."

I ADMITSWIPED the column quoted below. It was written by Martha G. Hall, wife of Jim Hall, Secretary-Manager of the Alabama Press Association at the University of Alabama. The article was carried in the "Alabama Publisher" the official

EXCLUSIVE AGENTS FOR GOLD KIST PECANS,

A DIVISION OF COTTEN PRODUCERS ASSOCIATION

Barbecue is one of the big events of the occasion.

I have a special invitation to attend and this time I plan to be there - but I'm not much of a fan for killing the deer. I guess if I was one of those farmers who get the crops "rattled" up by the deer I would take to the woods after them, also.

Anyhow that deer hunt has become a real big event for the Elba Rotary Club members. But anyone can go on the hunt if they are willing to buy a ticket.

I'm looking forward to attending this time but I'm hoping the weather will be mild and good. Mack has agreed to go but he is not a fisherman nor a hunter so I guess we can keep the camp fires burning while the others hunt. I will not be the only "cher" to attend the big-tobacco, a number of women attend and enjoy every minute of it.

THE ZALEA GARDEN Club Bazaar is scheduled for next Tuesday, November 19, and if you like home-baked pies, cakes and sandwiches along with hot coffee you should visit with those ladies at the Elba Methodist Church Education building between 10:00'clock that morning until 6:00'clock that afternoon.

They will also have a selection of gift items including arts and crafts, plants, home decorations, and to top it off a beautiful hand-made Afghan will be given away at the close of the bazaar.

I suggest you take the time to visit this bazaar. You will enjoy every minute of it. Of course you will not want to go back to work but stay around and visit with everybody.

Between the winking and the fanning, I'd be hard put to tell you a word. Preacher said he'd turned his hearing aid on as long as he was in the congregation. There was one general remark to get out. Nobody even invited Preacher for dinner the door wondering, no doubt, if he had had enough.

There were two carloads of us and when we got home and got seated around the table, Grandpa turned his hearing aid on long enough to listen to himself ask the blessing and then turned it back off, which is the way he keeps it on Sundays with preaching and com-

publication of the Alabama Press Association, the July 1968 "Serendipity" was carried in the Elba Rotary Club.

"Serendipity" was carried in the Elba Rotary Club. I earned for her a first place in Division 14, Best Original Column category at the summer convention of the Alabama Press Association in Nassau.

"Serendipity" it was the most delightful writing he had read in a long, long time, either in newspapers, magazines or books.

I agree with the judge that it is the kind of thing you read along to anyone nearby, and you enjoy the wonderful flavor of the speech, the wit and the characters and the comic atmosphere that surrounds it all. The judge reminded us that there's a lot of everyone's family in this group of characters. I failed to ask permission to quote this article but maybe Jim Hall will be busy to catch me at it.

Now read this most-entertaining column "Serendipity," by Martha G. Hall:

Last Sunday Preacher kept his sermon at the end of just about every sentence his eye would drop down about 100 feet from his eye and once in a while his eye would close.

The way Sister Evie Adkins, who works in the church cafe and thinks that every man who looks at her wants to marry her, was about to faint because she thought the preacher was winking at her.

She grabbed a funeral home man and started fanning herself. She said she nearly fainted at the church house.

Between the winking and the fanning, I'd be hard put to tell you a word. Preacher said he'd turned his hearing aid on as long as he was in the congregation. There was one general remark to get out. Nobody even invited Preacher for dinner the door wondering, no doubt, if he had had enough.

There were two carloads of us and when we got home and got seated around the table, Grandpa turned his hearing aid on long enough to listen to himself ask the blessing and then turned it back off, which is the way he keeps it on Sundays with preaching and com-

Even before Grandma could get the platter of fried chicken started, Aunt Maud was off like a racehorse about what a first class dinner it was to be winking at her during the sermon. And, of course, Aunt Maud snapped, "That does not give him a license to go around winking at respectable ladies."

"Aunt it the truth," Sister Evie seconded.

"No, no, I mean a nervous tic," Bill explained, "when a muscle twitches by itself."

"There's all nervous son," Grandpa said, "and if Preacher got ticks, he's bound to have 'em," he added, and ended for once and for all the conversation.

This the 25 day of October, 1968.

Miss Clark To Marry Mr. Harrison

Mrs. Louise Clark of Elba, announces the engagement and forthcoming marriage of her daughter, Nanci Virginia, to Pat Harrison son of Mr. and Mrs. Ned Harrison of Enterprise.

The bride-to-be, daughter of the late Penton Clark, is presently attending Elba High School.

She is the granddaughter of Mrs. Joe Moore and the late Mr. Moore of Elba and the late Mr. and Mrs. Will Clark, also of Elba.

The groom-to-be was graduated from Enterprise High School in 1968 and will be attending Enterprise State Junior College.

He is the grandson of Mr. and Mrs. Bill Blair and Mr. and Mrs. Homer Harrison, all of Enterprise.

The wedding will be an event of December 22 at 3 p.m. from the First Baptist Church of Elba. All friends and relatives of the couple are invited to attend.

Miss Nanci Virginia Clark

M. Bragg, Judy Eltridge, Myrtle Devane, James Eiland, James E. Farris, Pastine Blackmon, Myra Campbell, J. O. Witherington, Danny Frank Kidd, Early W. Eddins, Ester.

Persons discharged as of this time are:

Colvin Bass (expired), Charles Burdick, Mary Sue Marler, Myrtle Bell Flowers, Kelly Phillips, Margie Carnley, Tony Maddox, Sandra Killingsworth, Myrtle Nelson, Tony Maddox, Sandra Killingsworth, Annie Will Hall, Mary Frances Owens, Mozelle Parker, J. M. Bragg, Judy Eltridge, Myrtle Devane, James Eiland, James E. Farris, Pastine Blackmon, Myra Campbell, J. O. Witherington, Danny Frank Kidd, Early W. Eddins, Ester.

Kelleys Are New Parents Of Baby Girl

Mr. and Mrs. Dwight Kelley are the proud parents of a baby girl, Kimberly Dawn arrived Monday, October 28, 1968 in the Enterprise Hospital weighing 9 pounds and 8 ounces.

Grandparents are Mr. and Mrs. O. L. Kelley and Mrs. R. B. Hudson and the late Mr. Hudson all of Elba.

Revival To Be At Assembly Of God

Evangelist and Mrs. Ron Cox will conduct special revival services at the Elba Assembly of God Church, November 10-24.

Rev. and Mrs. Cox are musicians and singers. Services will be held each night except Saturday, beginning at 7 p.m. The Sunday evening services of the church begin at 6 p.m. through the winter months.

HAIR CARE POINTERS AID BEAUTY PROGRAM

If your crowning glory isn't as glorious as it could be, improper hair care may be at the root of the problem. These tips may help you improve the look of your locks.

A well-balanced diet is essential to healthy hair. If it's thin, try gentle massage, plus a dose rich in Vitamin C.

Cleanliness is the most important requirement for good-looking hair. How often you wash depends on your hair type, the climate, and the condition of the air where you live. Don't use extremely hot water when washing.

Too frequent or improper bleaching or coloring can damage hair. So can over-exposure to sun, salt water, sand or heavily chlorinated pool water.

Damaged hair is a common complaint. If your hair tends to become dry or unmanageable, try a non-alcoholic shampoo like the new Halo, which has just added glycerin to help keep hair supple and healthy.

When you brush your hair, brush it back from your face gently, not harshly — and always brush up and away from the neck, never down.

Jaycettes Met At Big R On November 7

The Jaycettes met Thursday night, November 7, at the Big R at 7:30 p.m. A business session was held during which plans were discussed for sending packages to Vietnam, the Junior Miss pageant to be held in Enterprise and the selling of fruit cakes.

Those present were: Mrs. Clifton Allen, Mrs. Dwight Wells, Mrs. Charles Ellis and Mrs. Winston Powe.

CARD OF THANKS

We would like to express our appreciation for the flowers, food and other expressions of sympathy shown us during the death of our son and brother.

May God's richest blessings be with each of you.

The family of
Ricky Harold McKinney
11-14-1968.

Here's a sewing tip. Sometimes a zipper tape in a cotton garment will shrink and lock puckered after the garment has been washed. Avoid this by soaking zippered items and drying them flat before stitching into a cotton garment.

Mullberry F.H.A. Met Recently

The Mullberry Heights Chapter of Future Homemakers of America met recently at the Mullberry Heights Home Economics department with the President, Zeola Smith, presiding. Plans and activities for the year were discussed and two new officers were elected.

Officers for the year are: President, Zeola Smith; Samella Terrell, vice president; Brenda Ellison, recording secretary; Gwendolyn Coleman, financial secretary; Cynthia Daniels, Treasurer; Margaret Caldwell, Historian; Little J. Edwards, Parliamentarian; Gwendolyn Ellison, recreational leader and reporter.

The newcomers to the organization were initiated on November 1st, 1968.

Donnie Holley Honored With Surprise Party

Donnie Holley was entertained on his 16th birthday with a surprise party, Saturday, November 9.

Hostesses for the occasion were his mother, Mrs. John Holley, Sr.; his sister, Mrs. Christine Johnson and Mrs. Stella Bloodworth; and Miss Cathy DeVaughn.

Approximately thirty guests attended the party. A special treat for the affair, was a birthday cake in the shape of a football field with players and featuring the number "23" which is Donnie's jersey number on the Tiger team.

Rhett McCollough Has Birthday Party

Rhett Gordon McCollough, who will be 3 years old, November 14, was honored with a birthday party in the home of his parents, Mr. and Mrs. Earl G. McCollough, on Monday, November 11 from 3 until 4:30 p.m.

Assisting with the gala affair were: Mrs. L. C. McCollough, his grandmother; Mrs. Tommy Thomas; Mrs. Richard Brown and Mrs. Billy Kelley.

Refreshments of punch, cake, potato chips and nuts were served to the 12 guests.

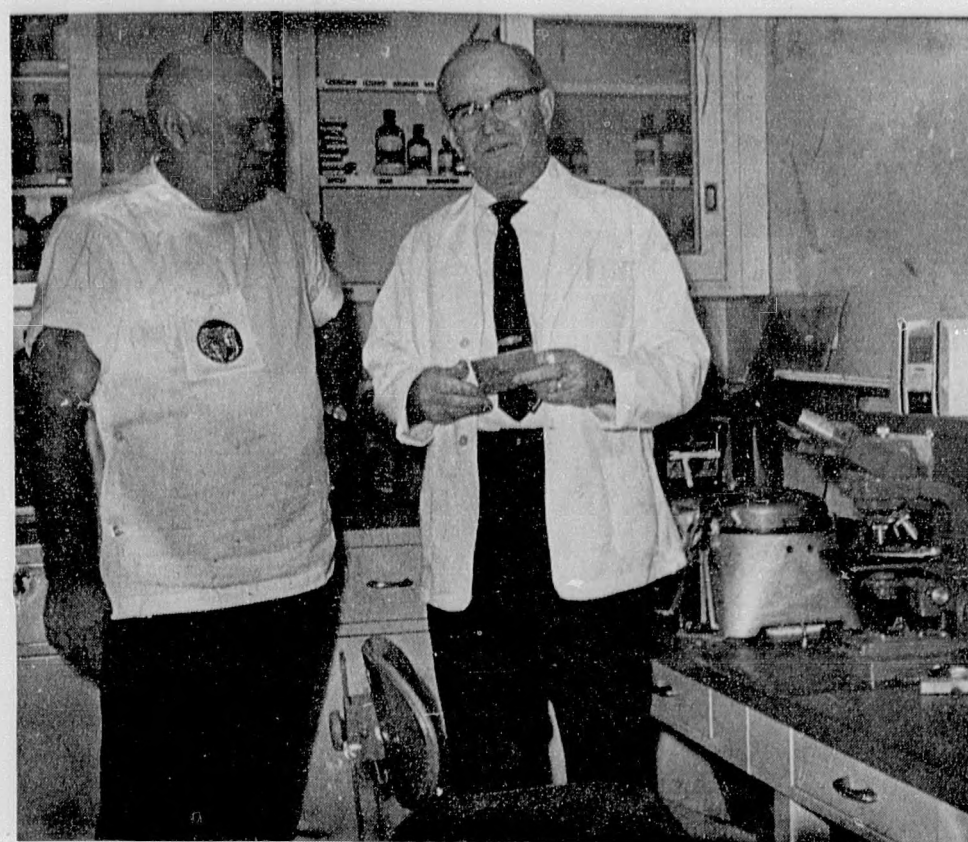

Those who attended and enjoyed the fun and games were: Joe Thomas, James Black, Chris Kelley, Troy Brown, Harrell and Carroll Moseley, Rolinda Powell,

Suzy Powell, Todd and Donnie McCollough and Dale Stinson.

FASHION-RATED DORM WEAR—For study hours or musical get-togethers in the dorm, stylish and comfortable clothes are prescribed wear. Luncheonette makes them long and flowing in soft cotton challis, printed in a rich blue and gold paisley with wide border design.

LAB WORK at the Elba General Hospital goes on all day long and in the above photo Dr. J. M. Kimmey tells Lab Technician George Keltner what he needs from some slides. The completely equipped lab can also furnish blood test reports in a hurry for those wishing to get married today. It is one of the few in this area qualified to do this.

FUNERAL SERVICES HELD FOR RICKY MCKINNEY

Funeral services were held Saturday for Ricky Harold McKinney, age 19, who died Friday, November 8th. He resided in Kinston and was employed at Dorsey Trailers in Elba. He was a 1967 graduate of Kinston High School.

The funeral was held from Rainer's Chapel in Kinston at 10 a.m. with burial in Brook-Lyn Cemetery.

Minister Jim Johnson conducted the service.

Survivors include his parents, Mr. and Mrs. Joe McKinney; three brothers, Randy, Tony and Phillip; all of Rt. 1, Kinston; and grandparents, Mr. and Mrs. J. J. McKinney of Rt. 1, Kinston and Mrs. Mark V. Kinston and Mrs. Mark V. Kinston.

Palbearers were Tommy Martin, Mance Daughtery, Jerry Barnes, Steve Cosby, Max Kersey, and Leroy Lindsey.

MONROE BRAGG DIES IN LOCAL HOSPITAL SATURDAY

Joseph Monroe Bragg, 81, died in an Elba hospital Saturday morning, November 9th. Funeral services were at 2 p.m. Sunday from the Elba Baptist Church with Elder J. P. Morgan and the Rev. Mr. Odom officiating. Burial was in the church cemetery.

Survivors include four sons, Gordon Bragg, Jay Florida; Venston Bragg, Troy and Doc Bragg and the Grafton Bragg, both of Kinston. He was born in Vaneria Mobley, Jack and Mrs. Odean Thomas, Phenix City. 15 grandchildren and 11 great grandchildren.

We see only wires! But at this very moment a woman in San Francisco may be speaking to her husband in Tokyo. . . . a boy at Princeton may be inviting a girl in Albuquerque to a football game. . . . and Mrs. Green of R. D. No. 1 may be playing her order with Mr. Brown of the Crossroads Store.

Here — where sixty wires cling to the cross-arms of a weathered pole — the ends of the earth meet!

It's like that in our local churches on Communion Sunday. Whether fifty or five hundred receive the Holy Sacrament . . . the ends of the earth meet. For the Lord's Supper is not a rite of one church or one denomination. It is the common, sacramental feast of millions of Christians all over the world.

Are you availing yourself of this blessed privilege, and are you attending your church regularly? As you receive this Sacrament in your church, your life is linked to the lives of Christians everywhere. And you and they are united in a common communion with God!

Kinston Bank Has New Officers

Annual Shareholders' meeting of the Bank of Kinston was held in Kinston on November 5, W. L. Stephens, Postmaster at Kinston, was elected to serve on the Bank's Board of Directors for the ensuing year.

Others elected to serve on the Board were: C. Carroll Pierce, Chairman, T. F. Anderson, James F. Grigg, Jr., Charles A. Mallory, E. C. Nevin, Thurman Nutt, G. C. Pierce and T. W. Pierce.

The Board elected Robert Atkins Cashier, and elected James F. Grigg, Jr. as Vice Cashier.

The Bank of Kinston has experienced rapid growth subsequent to the organization two years ago. Total resources now exceed \$1,500,000.

Eastern Star will meet on November 14.

The Elba Chapter No. 323 of the Eastern Star will meet Thursday (tonight), November 14 for their regular monthly meeting.

The meeting will be at 7 o'clock at the Masonic Hall.

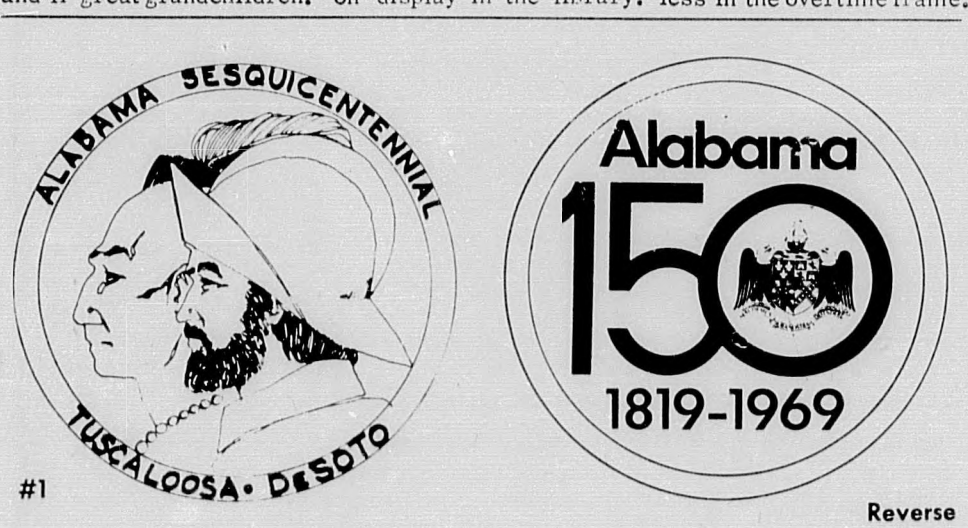

NEW BROCKTON SCHOOL TO SPONSOR BOOK FAIR

The New Brockton High School in New Brockton, will sponsor a studentbook fair from November 18 to 22. The fair will be open during the hours of 8:30 a.m. to 4:00 p.m. Books will be on display in the library.

Kinston, hosted New Brockton 81-40 to win first place honors in the pre-season round robin tournament in Kinston Friday night.

Jack Holley led the winners in the scoring department with 22 points. Johnny Windham scored 11 points for New Brockton.

Dan Fugua scored 26 points to lead Pleasant Home in the overtime frame. Victory over Strathglen gave Pleasant Home second place in the tournament standings. Pleasant Home scored six points and held Strathglen scoreless in the overtime frame.

Coins On Sale At Bank

Coin collectors should be interested to know that Alabama Sesquicentennial Commemorative Coins are now available at The Peoples Bank in Elba. These coins were issued to commemorate the 150th anniversary of the State of Alabama.

The coins will be offered in a series of five issues with the face of the five various coins bearing either Chief Tuscaloosa and Desoto; Andrew Jackson and the Battle of Horseshoe Bend; The Battle of Mobile Bay; The Alabama State Capitol Building or the NAS in Huntsville.

These coins are a limited issue and are available as individual coins or in matched sets. Individual Alabama Sesquicentennial Commemorative Coins in nickel silver are priced at 50¢ each of \$3.00 each. The coin in Sterling silver is priced at \$10.00 each or \$60.00 per set. Sterling coins must be purchased and each one registered. Only one thousand of each coin will be sold in Elba.

New Gun Law Is Explained

The new Federal gun law puts controls on interstate and over-the-counter sales of firearms and ammunition and requires registration of destructive devices and gangster-type weapons. IRS Commissioner Sheldon S. Cohen said.

While most of the controls on gun and ammunition sales under the Gun Control Act of 1968 go into effect December 10, import curbs become effective October 22, Mr. Cohen said. The Alcohol and Tobacco Tax Division of IRS, the agency which administers Federal gun laws, is now preparing material that will help those who sell guns and ammunition, as well as the general public, comply with the requirements.

The purpose of the new law is to help Federal, state and local law enforcement officials fight crime and violence, Mr. Cohen said. "It is not the law's intent," he added, "to place any unnecessary restrictions on the purchase or ownership of firearms used for hunting, target shooting, or any other lawful purpose."

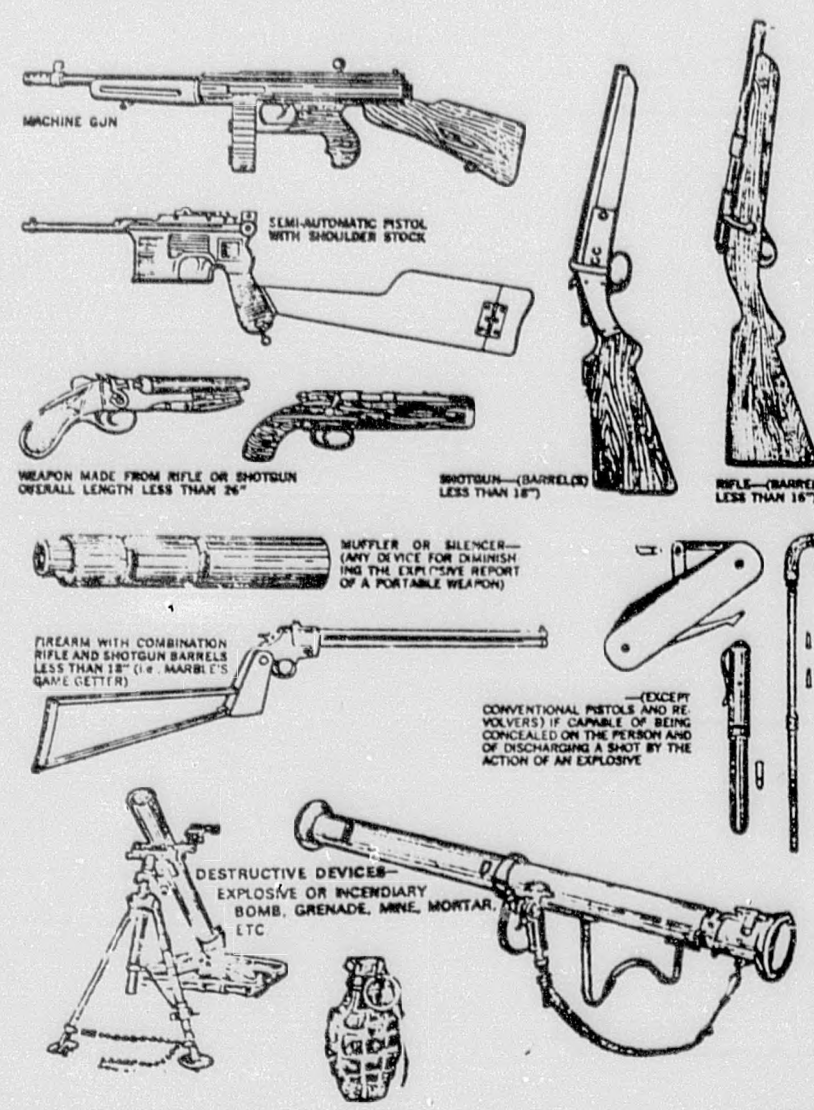

Mr. Cohen said the controls on guns and ammunition should help curb indiscriminate traffic in deadly weapons. To buy a gun or ammunition, the retail purchaser will usually have to appear in person and show identification sufficient to establish his name, address and age. Persons under 21 will be prohibited from purchasing pistols, revolvers, and ammunition for such weapons and persons under 18 will not be permitted to purchase any firearms or ammunition.

Sales will generally not be permitted to out-of-state residents according to Mr. Cohen, although a person from an out-of-state can buy a rifle or shotgun by complying with certain provisions of the new law.

To help gun dealers comply with this section of the law, IRS has asked about 10,000 police departments throughout the country for copies of their local gun laws, summaries of pertinent laws are being compiled in a booklet and will be mailed by IRS to Federally licensed gun dealers.

Mr. Cohen said the booklet, which should be in the hands of dealers before December 10, will enable them to check on the gun laws of a locality before selling a gun.

A provision of the law which is effective October 22, says the import of

plus military firearms from overseas. The U. S. has been a dumping ground for these weapons for many years. However, other firearms particularly suitable for sporting purposes may still be imported.

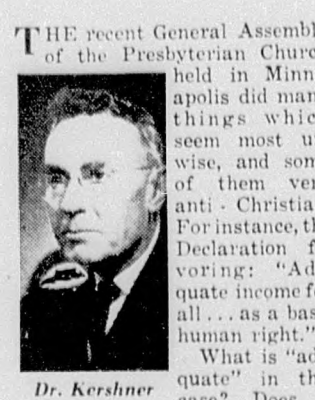

Firearms Registration Requirement. The gangster-type weapons that have to be registered include machine guns, sawed-off shotguns, short barreled rifles and shotguns, destructive devices, explosives or incendiary bombs, grenades, mine mortars, and rockets as well as certain projectile firing weapons such as anti-tank guns, bazookas and mortars.

Mr. Cohen said anyone with a gangster-type weapon not previously registered or a destructive device that must be registered during the period from November 2, through December 10, will be required to register the weapon during this period. The gun control law provides that information or evidence submitted in registering a weapon during this period cannot be used against the registrant.

IT'S UP TO YOU

By Howard E. Kershner, L.H.D.

An Unfortunate Church Pronouncement

Dr. Kershner

THE recent General Assembly of the Presbyterian Church in the U.S.A. held in Minneapolis did many things which seem most unwise, and some of them very anti-Christian. For instance, the Declaration, favoring "adequate income for all" as a basic human right.

What is "adequate" in this case? Does it mean enough for food, clothing, housing, transportation, education and amusement? These are all variables. Would "adequate" include enough to buy liquor, tobacco—to gamble—to buy TV sets, automobiles and visits to the beauty parlor? If one does not earn enough to buy these things, from what source will the needed amount come? From government? But government has nothing, and before it can supplement the incomes of those who earn less than the so-called "adequate" amount, it must seize some of the wealth of others. As this process goes on it will be found that our most productive people become less and less willing to work hard because a substantial portion of their earnings are being taken from them. Soon there will be no means of obtaining the so-called "adequate" income for everybody because the stream of wealth is drying up due to the decrease in incentive.

But some will say that enough is being produced to supply an "adequate income" for all. Watch out there, for we already have a third more than the value of our entire wealth. Furthermore, when we step up the process of seizing the wealth of some for the purpose of giving it to others, we shall soon find that the producing class will produce less and less and those who are on the receiving end will have more and more to be content with their handouts and will make less effort to produce for themselves. These two forces are both operating strongly toward decreasing production.

We live not from existing wealth that is already in being, but rather from the stream of wealth that is being produced from day to day. If we slow up this process, very soon we shall all find ourselves in the class of the needy, and more and more of us will be seeking to depend upon what we have been taught to believe are our "basic human rights" to an "adequate income."

If that's what the people of this country want, the only way they might hope to get something comparable to it would be to set up an authoritarian government with the power first of all to determine what is "adequate," and second, to crack the whip over all of us and force us by whatever cruel measures were necessary to work hard. That might produce what the government would describe as an "adequate income."

Howard E. Kershner, L.H.D., is a writer and speaker. He is the author of "The New World of Tomorrow" and "The New World of Today." He is also the author of "The New World of Tomorrow" and "The New World of Today."

By Tom Cassidy, County Extension Chairman

PLANS are being formed up to conduct a beef cattle short course in January. Those planning to participate are Dr. J. W. Gossett, head of the animal science department at Auburn, Mr. O. N. Andrews, Dr. Worth Lanier, Dr. Dennis Herd, Dr. Richard Deese and Mr. Harold Watson. Further details will be mailed to cattle producers before Christmas.

FORESTRY PROGRAM. We are planning to have a forestry meeting soon after Christmas to discuss some of the problems that our landowners are facing. For example, a lot of people with pine 12-15 years old are wondering if they would be better off to clear cut or leave them there for 12-15 years or take out some of them. If you have suggestions on things to cover, what about dropping in a note and we will include these in the program.

GOOD FOOD. William C. Sherman, director of Nutrition Research, National Livestock and Meat Board, in Chicago, had this to say about pork and health. "Pork is lean meat, is an excellent source of high quality protein, minerals and B vitamins. It is no higher in fat and calories than other types of lean meat and is an excellent food for general use in weight reduction diets. Pork is

highly digestible and should be included in diets for patients who are recovering from ulcers and for those with restless types of digestion problems."

WILDLIFE CONSERVATION. Coffee County 4-H Club members are in for a real treat during their November 22-23, 1968, conservation officer, will give a very interesting program on wildlife conservation.

There are some changes in the program for 1969 however, the principal change is that home gardens are provided for low income families. A low income family is a family with a total gross income of \$3000 or less from all sources. This is based on the gross income and not the clear net income of the family. Other changes are: The lifespan for time has been reduced to 3 years; Planting dates must be adhered to; coastal Bermuda cost share is on a per acre rate conditioned upon the use of 15 to 20 bushels of sprigs or clippings, some practices such as wells, ponds, etc. are now package payment practices. In this instance the maximum cost share per practice; The lifespan for the improvement of permanent negative cover has been reduced to three years; On fertilizer by Nov. 29, 1968, for early recommended rates are practices.

Another approach to soils testing high in phosphorus and potassium is the Model-T Ford. "A soil testing high in phosphorus and potassium need not need an application of phosphate nutrients any one year," says Dr. Walter Sowell, soil specialist for the Auburn University Extension Service. "There is enough of these two nutrients in a soil testing high to produce top yields for one year with only an application of nitrogen."

"There is enough of these two nutrients in a soil testing high to produce top yields for one year with only an application of nitrogen."

Another approach to soils testing high in phosphorus and potassium is the Model-T Ford. "A soil testing high in phosphorus and potassium need not need an application of phosphate nutrients any one year," says Dr. Walter Sowell, soil specialist for the Auburn University Extension Service. "There is enough of these two nutrients in a soil testing high to produce top yields for one year with only an application of nitrogen."

By Tom Cassidy, County Extension Chairman

PLANS are being formed up to conduct a beef cattle short course in January. Those planning to participate are Dr. J. W. Gossett, head of the animal science department at Auburn, Mr. O. N. Andrews, Dr. Worth Lanier, Dr. Dennis Herd, Dr. Richard Deese and Mr. Harold Watson. Further details will be mailed to cattle producers before Christmas.

FORESTRY PROGRAM. We are planning to have a forestry meeting soon after Christmas to discuss some of the problems that our landowners are facing. For example, a lot of people with pine 12-15 years old are wondering if they would be better off to clear cut or leave them there for 12-15 years or take out some of them. If you have suggestions on things to cover, what about dropping in a note and we will include these in the program.

GOOD FOOD. William C. Sherman, director of Nutrition Research, National Livestock and Meat Board, in Chicago, had this to say about pork and health. "Pork is lean meat, is an excellent source of high quality protein, minerals and B vitamins. It is no higher in fat and calories than other types of lean meat and is an excellent food for general use in weight reduction diets. Pork is

highly digestible and should be included in diets for patients who are recovering from ulcers and for those with restless types of digestion problems."

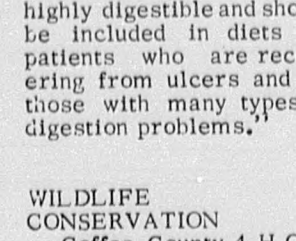

WILDLIFE CONSERVATION. Coffee County 4-H Club members are in for a real treat during their November 22-23, 1968, conservation officer, will give a very interesting program on wildlife conservation.

There are some changes in the program for 1969 however, the principal change is that home gardens are provided for low income families. A low income family is a family with a total gross income of \$3000 or less from all sources. This is based on the gross income and not the clear net income of the family. Other changes are: The lifespan for time has been reduced to 3 years; Planting dates must be adhered to; coastal Bermuda cost share is on a per acre rate conditioned upon the use of 15 to 20 bushels of sprigs or clippings, some practices such as wells, ponds, etc. are now package payment practices. In this instance the maximum cost share per practice; The lifespan for the improvement of permanent negative cover has been reduced to three years; On fertilizer by Nov. 29, 1968, for early recommended rates are practices.

Another approach to soils testing high in phosphorus and potassium is the Model-T Ford. "A soil testing high in phosphorus and potassium need not need an application of phosphate nutrients any one year," says Dr. Walter Sowell, soil specialist for the Auburn University Extension Service. "There is enough of these two nutrients in a soil testing high to produce top yields for one year with only an application of nitrogen."

1969 Agricultural Program Opens In Coffee County

The 1969 Agricultural Conservation Program has been opened by the Coffee County ASC Committee, effective November 12, 1968 and applications will be accepted, for cost shares, through November 29, 1968. The ASCS Office, in releasing this statement, urged all farmers to file application for cost shares before the closing date. There are some changes in the program for 1969 however, the principal change is that home gardens are provided for low income families. A low income family is a family with a total gross income of \$3000 or less from all sources. This is based on the gross income and not the clear net income of the family. Other changes are: The lifespan for time has been reduced to 3 years; Planting dates must be adhered to; coastal Bermuda cost share is on a per acre rate conditioned upon the use of 15 to 20 bushels of sprigs or clippings, some practices such as wells, ponds, etc. are now package payment practices. Alb. Pecan Crop Will Bring Good Prices

A hungry market awaits Alabama's projected 30-million-pound pecan crop. "This year's harvest at two million pounds above last year's and 2.6 million above the 1962-1966 average will demand high prices," says M. R. Glasscock, Extension specialist in fruit and vegetable marketing.

The U. S. crop in 1967 was short. Since midsummer, explains Glasscock, major pecan nut meat dealers have been out of supplies. And, he adds, they won't find too much of last year's crop in this year's nationwide crop.

A short U. S. crop predicted to be 19 per cent below last year's yield and a complete absence of carry-over should create exceptionally good prices for Alabama pecans.

JUDGE THE GEHL MIX-ALL ON YOUR FARM!

Arrange now for a Mix-All demonstration and we'll grind and mix a few tons of feed FREE!

We make this offer because we're sure you'll like the Mix-All features: (1) 66 thin hammers that cut not pound grain and hay to uniform size; (2) variable speed drive on the auger feeder; (3) twice as many hammers per square foot of screen area than other mills; (4) fiberglass mixing tank (non-metal) no rusting, no condensation, no feed bridging, no up-keep or color fading; (5) rugged construction from hitch to hopper and mill to mixer.

But how about judging this for yourself? Call now to schedule a Mix-All demonstration on your farm.
